Training-6

Dear Mr. Carlucci,

Tricon Security Corporation, a specialized security corporation, would like to exclusively offer the CIA an introductory course in Service and Maintaining Group One High Security Locking Devices.

This course will more than compliment your sophisticated in-house training programs.

Our designated instructor has a wealth of practical and theoretical experience resulting from fifteen years of continuous experience in the service and actual development of the Group One Locks and their predecessors.

The methodology of instruction will provide your attendees with theoretical depth and practical application. Our case study method and conceptual skill development instruction will assuredly succeed with your attendees.

The course will be taught three nights a week for six weeks beginning the third week in October. Because the course is designed specifically for the CIA, the hours and dates can be tailored to accommodate your preferences.

Please contact me at your earliest convenience so that we may personally discuss in greater detail the particulars related to this course of instruction. Importantly, at your convenience, we are prepared to make an oral presentation.

Thank you for the opportunity to offer you this service.

Sincerely,

[Signature]
